RentEase: Ideation Phase

Empathy Map Canvas — Empathize & Discover

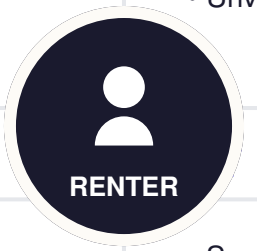
Date	July 2026	**Project Name**	RentEase Platform
Persona / Role	**Renter (Prospective Tenant)**	**Target Goal**	Find and securely book a verified property tour

THINK & FEEL

- "I hope this listing isn't a scam."
- "I need an apartment that fits my budget and provides clear details."
- "Scheduling tours over phone calls is so frustrating and stressful."
- Anxious about losing a good place to faster applicants.

SEE

- Cluttered standard real-estate platforms with outdated properties.
- Listings with hidden fees and missing furnishing details.
- Scattered contact info instead of a unified, simple booking button.
- Unverified "landlords" posting suspicious photos.



HEAR

- Friends warning them about unverified landlords and fake listings.
- "Landlords never reply to my text messages."
- "Good places get taken instantly, you have to be fast."
- Stories of people showing up for tours that get double-booked.

& DO

- Spends hours filtering through multiple websites looking for a match.
- Tries to manually coordinate visit times over SMS/WhatsApp.
- Relies heavily on visual cues (property images) to make quick decisions.
- Refreshes pages continuously waiting for new listings.

PAIN

- Wasting time traveling to properties that don't match their descriptions.
- Fear of getting scammed by unapproved property managers.
- Uncoordinated scheduling leading to no-shows or double-bookings by the owner.

GAIN

- A unified Renter Dashboard to browse and book property tours instantly.
- Peace of mind knowing landlords are strictly Admin-verified.
- Real-time status tracking (Pending, Confirmed, Cancelled) for scheduled visits.

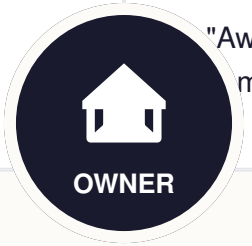
RentEase: Ideation Phase

Empathy Map Canvas — Empathize & Discover

Date	July 2026	**Project Name**	RentEase Platform
Persona / Role	**Property Owner (Landlord)**	**Target Goal**	List properties easily and manage tour bookings

THINK & FEEL

- "I want reliable, serious tenants to rent my property."
- "Managing all these scattered tour requests across apps is overwhelming."
- "I need a professional way to display my listings to stand out."
- Concerned about platform security and unauthorized users.



SEE

- Messy spreadsheets, text chains, or notebooks used to track visits.
- Unorganized inboxes flooded with repetitive questions ("Is this available?").
- Other platforms failing to verify user intent, leading to spam.
- "Awaiting Verification" gates that prevent them from accessing tools mediately.

HEAR

- Other landlords complaining about spam calls at all hours of the night.
- "Tenants frequently ghost or forget about scheduled physical tours."
- "It's hard to verify if a tenant is genuinely interested before showing."
- Platform policies requiring admin approval before posting.

SAY & DO

- Manually updates listing statuses across different social media groups.
- Spends significant time texting back and forth to agree on a time slot.
- Forgets to take down active listings once a property is finally leased out.
- Uses the Listing Composer to upload images, set rent, and specify furnishing.

PAIN

- High volume of unqualified leads, spam inquiries, and time-wasters.
- Lack of a centralized calendar/queue for showing properties.
- Difficulty proving their legitimacy to skeptical renters online.

GAIN

- Admin verification status that builds instant trust with prospective tenants.
- Automated "Lease Scheduler" with 1-click Approve/Cancel for tour requests.
- A clean Listing Controller to easily toggle active lease states or delete postings.
