RENTEASE PLATFORM

Customer Journey Map

Scenario: Renter discovering, booking, and attending a verified property tour.

Date: 19 July 2026

Persona: Renter (Prospective Tenant)

	💡 Entice How does someone initially become aware of this process?	🚪 Enter What do people experience as they begin the process?	🤝 Engage In the core moments in the process, what happens?	🚪 Exit What do people typically experience as the process finishes?	⭐ Extend What happens after the experience is over?
Steps What does the person typically experience?	Hears about RentEase's verified landlord feature from a friend. Visits the landing page to search anonymously.	Registers an account and accesses Renter Dashboard. Filters the Explorer Grid by budget and location. Picks a tour date via the Booking Coordinator.	Receives "Confirmed" status update. Arrives at property address. Meets the Admin-verified Owner and tours the property.	Concludes the property tour. Decides whether to proceed with the lease agreement.	Receives automated prompt to rate the tour experience. Recommends the platform to other house-hunters.
Interactions What interactions do they have? (People, Places, Things)	Word of Mouth (Friends) RentEase Guest Landing Page (Web/Mobile UI)	JWT Authentication flow Dynamic Explorer Grid Inline Scheduler	Dashboard Status Logs Physical Property (Real-world location) Property Owner (In-person)	In-person handshake / closing discussion Follow-up contact details exchanged	Review form on Renter Dashboard Social Media / Messaging Apps
Goals & Motivations At each step, what is their primary goal?	"Help me find a safe, scam-free apartment within my budget."	"Help me book a tour without the hassle of texting back and forth." "Help me verify the exact amenities before I visit."	"Help me confirm the property looks like the photos." "Help me assess if the landlord is professional and trustworthy."	"Help me secure the lease before other fast applicants take it."	"Help me share my good experience to help others avoid scams."
Positive Moments What steps are delightful or motivating?	Seeing the explicit "Admin-Verified" badge builds instant trust.	1-click tour booking saves immense time over standard SMS negotiation.	The landlord is actually expecting them at the exact time (no double-bookings).	Feeling relieved to have found a legitimate, high-quality living space.	Feeling accomplished and settled in a new home.
Negative Moments What steps are frustrating or confusing?	Inherent anxiety and skepticism about real-estate platforms due to past scams.	Waiting for the owner's approval state to change from 'Pending' to 'Confirmed'.	Finding the exact property location or parking can sometimes be confusing.	Handling manual paper lease agreements offline after a highly digital process.	Forgetting to log back into the app to leave a review for the landlord.

	💡 **Entice** **How does someone initially become aware of this process?**	🚪 **Enter** **What do people experience as they begin the process?**	🤝 **Engage** **In the core moments in the process, what happens?**	🚪 **Exit** **What do people typically experience as the process finishes?**	⭐ **Extend** **What happens after the experience is over?**
Areas of Opportunity How might we make each step better?	How might we feature verified landlord testimonials directly on the hero landing page?	How might we integrate SMS/Email notifications when a booking shifts to "Confirmed"?	How might we integrate a map API (like Google Maps) to give one-click directions to the property?	How might we introduce an in-app digital lease signing feature in V2?	How might we automate a "Rate your tour" push notification 2 hours after the scheduled visit time?
